European Business & Nature Summit

GS7 — Investing in green infrastructure and nature-based solutions at the local level

Clúster Soluciones basadas en Naturaleza (SbN)": UN PROCESO AMBIENTAL, SOCIAL Y ECONÓMICO.

Andrés Alcántara

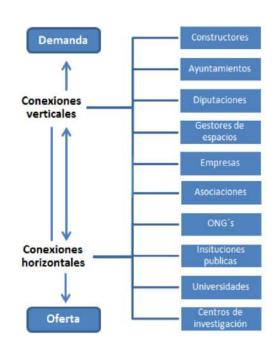

Centro de Cooperación para el Mediterráneo

UICN

"Cluster Solutions Based on Nature (SbN)" an association is established under the Spanish Law 1/2002, of March 22

Context

El ámbito geográfico de las actuaciones del Clúster empieza en Málaga Capital, pero se extiende por todo el litoral andaluz y Mediterráneo Occidental.

Un clúster es una agrupación de entidades con un interés común de colaboración y trabajo conjunto. La agrupación está constituida por miembros desde tres sectores, institucional, empresarial e investigación, que trabajan conjuntamente con el objetivo de obtener beneficios comunes.

Antecedentes

El cambio global que conlleva subida del nivel del mar, aumento de temperaturas y frecuencia de fenómenos climáticos extremos, afecta fuertemente a la provincia y ciudad de Málaga. Es necesario buscar nuevas e innovadoras soluciones a los problemas derivadas del cambio. El objetivo del Clúster es identificar problemas relacionadas con la sociedad y el medio ambiente y aportar soluciones basadas en naturaleza, sostenible, fiables y duraderas.

#BusinessNatureSummit

7 & 8 November 2019

The Association aims to:

- > Study, standards and knowledge of nature-based solutions in the international, Mediterranean, in collaboration with multilateral organizations, public administrations, companies and organizations.
- Promotion of synergies between companies, professionals (partners or not) and organizations related to nature-based solutions.
- Promotion of interactions and collaboration with other entities that work in the same field, with the intention of favoring the exchange of experiences on solutions based on nature.
- > Promote the exchange of information and ideas, as well as the training and recycling of professionals.
- Promote projects and actions that are aimed at the promotion, promotion, implementation and implementation of nature-based solutions.

#BusinessNatureSumm

7 & 8 November 2019

For the fulfillment of these purposes the following activities will be carried out:

- > Create, promote, and, in general, encourage all kinds of actions that tend to the best development of solutions based on nature and the greater knowledge of them by society.
- > Generation of spaces for exchange, debate and reflection.
- Disseminate, by the means at your fingertips, all kinds of information regarding solutions based on nature.
- ➤ To promote in the business world the concept of solutions based on nature for the generation of labor options.
- Cooperate with other entities and collaborate with public and private institutions, at local, regional, national and international levels.
- Disclosure, dissemination and promotion of the Association itself and its purposes.
- > External projection of the Association.
- > All actions deemed appropriate for the achievement of the aims and objectives developed in article number 3.

7 & 8 November 2019 #BusinessNatureSummi

Las SbN

Las soluciones basadas en naturaleza son un concepto promovido por la UICN (https://www.lucn.org/node/28778), que abarca todas las soluciones que se apoyan en los ecosistemas. Entendemos que las SbN son un importante componente en las políticas para el desarrollo y una estrategia efectiva para alcanzar los Objetivos de Desarrollo Sostenible (ODS) de la ONU.
