

European Business & Nature Summit

Group Session 5

Financial institutions need and can get biodiversity targets like the 2°C

Joshua Berger, Global Biodiversity Score project manager

CDC Biodiversité

CDC BIODIVERSITÉ

7 & 8 November 2019

#BusinessNatureSummit

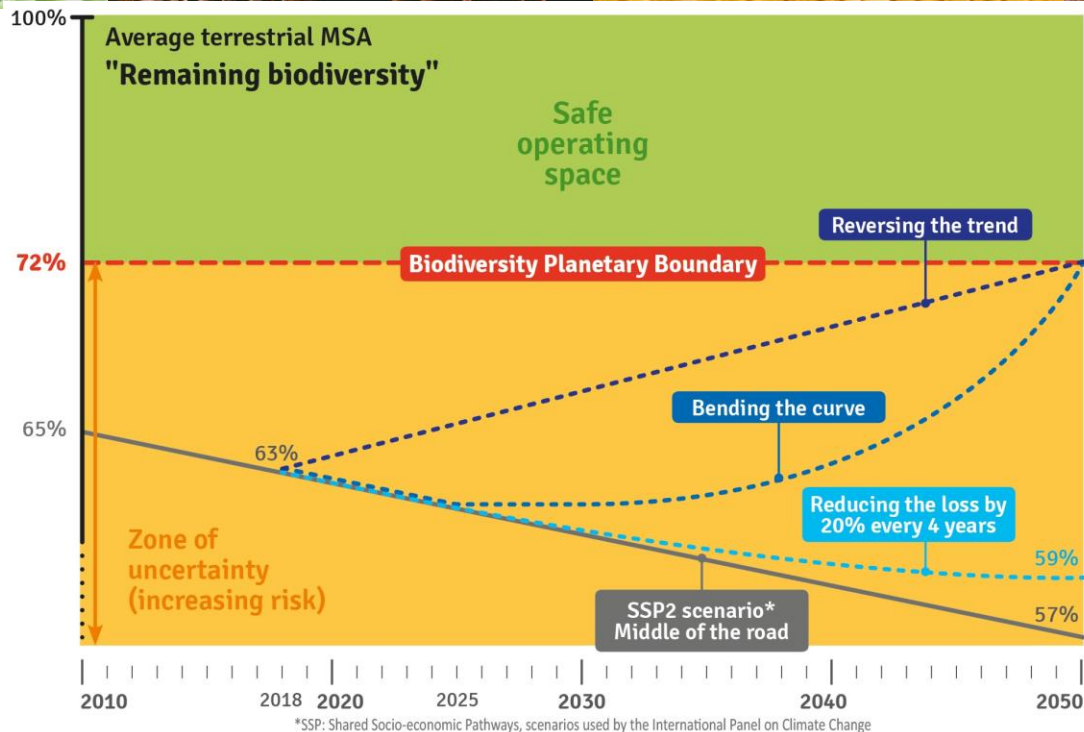

CDC Biodiversité, a subsidiary of Caisse des Dépôts (CDC)

- Private subsidiary of CDC group, the largest French public financial institution (> 100 000 employees, EUR 150 billion assets under management)
- Activities:
 - Biodiversity offsets
 - Biodiversity restoration
 - Business for Positive Biodiversity Club (B4B+ Club)
 - Research and publication

Targets and trajectories on biodiversity loss and on its drivers will provide a "biodiversity budget"

*SSP: Shared Socio-economic Pathways, scenarios used by the International Panel on Climate Change

Several tools can support financial institutions to assess and reduce their impacts on biodiversity

PUBLIC POLICY	CORPORATE & PORTFOLIO	SUPPLY OPTIONS	PRODUCT & SERVICE	PROJECT / SITE	Business application supported		
	BFFI (ASN Bank)				A - Assessment / rating by and for third parties with external data		
Country footprint (IUCN)	GBS (CDC B)				B - Internal communication and external disclosure		
BRIM (IUCN)							
LPI (WWF)	EPGL (Kering)	Bioscope (Platform BEE)	LIFE Index (LIFE Institute)	BF (Plansup)	Extractive (WCMC)	Mining footprint (BHP+CI)	C - Biodiversity management & performance
GLOBIO (PBL)	BRIM (IUCN)	BIM (CISL)	PBF (I Care + Sayari)	BRIM (IUCN)	BPT (Solagro)		

- Assess the impacts on charismatic (in particular endangered) species
- Assess the impacts on biodiversity as a whole
- Do not fall in any of these categories

Financial institutions and businesses can contribute to achieving the post-2020 global biodiversity framework
